

## querstadtein offers jobs to new Berlin residents

querstadtein is a non-profit association that connects political education to urban spaces. On our tours, people who are usually talked about have THEIR say. In our city tours "Climate. Migration. Dialogue", people from different countries who live in Berlin today, share their personal experiences with the effects of climate change. Which places are important to them in Berlin and why? What were their causes of migrating or fleeing? Did they experience migration due to climate change? Are they politically active in this field? How?

### **New Berlin residents (refugees & immigrants) as tourguides!**

#### **Responsibilities**

The purpose of these tours is to raise awareness on the topics related to migration and climate change through firsthand lived experiences of individuals. You are free to choose the topics you want to talk about on your tour. Some examples of the related topics are:

- Reasons behind your migration that are related to the local or global climate change.
- Places in Berlin that you can relate to, especially in regard of your migration story.
- causes and effects of climate crisis that affect the situation in your hometown or country
- Your current life in Berlin, what you like and dislike about it, and the consequences of migration on your life.
- and other themes that you can relate to and are relevant to the climate-migration, such as the role that west world plays in the global climate change, refugee rights and life conditions in the destination country, and your daily struggles and challenges in Berlin.
- Answering questions of tour participants

#### **Requirements**

- You speak English (or German) at Level B1 or higher.
- You are interested in political education and willing to speak about the mentioned topics with German or international groups and talk about your own personal story.
- You have basic knowledge on the topic of climate change or are interested to learn about it.
- You can invest a few hours weekly in the project.
- You are open and interested in meeting new people.
- You are reliable and punctual.

#### **Benefits**

- Fair payment for your part-time job.
- We develop the tour together with you, and support you with scientific background information on the climate crisis, its consequences and climate migration.
- You contribute to environmental education that promotes climate protection.
- Flexible tour dates and working schedule.
- Interesting contacts and the possibility to establish a private and professional network.
- Assistance and support in administrative and professional matters (if desired).
